

Streamlining IT Procurement: Automating Standard Laptop Orders with Flow Designer

4. Planning

Milestone 1 – Flow

- Create the Standard laptop task flow.
- Configure Service Catalog trigger.
- Configure Create Catalog Task action.
- Set task description, Assignment group = Hardware, and Approval = Approved.
- Save and activate the flow.

Milestone 2 – Flow Assignment

- Open Maintain Items.
- Select Standard Laptop.
- Open Process engine.
- Remove remaining automations and add the Standard Laptop Task flow.
- Save the catalog item.

Milestone 3 – Service Catalog

- Open Service Catalog → Hardware.
- Select Standard Laptop.
- Choose Order Now.
- Open the request and approval sections.
- Approve the request.
- Open the Requested Item and inspect Catalog Tasks.

Planning Data Not Provided

- Formal sprint dates, story points, velocity, burndown figures, named owners, deadlines, and resource estimates are not provided in the source PDF.
- Those values should not be invented for a final submission.

Source basis: the supplied 10-page Project 2 PDF. Fields not supported by the source are explicitly identified as not provided.
